Introducing new
revolution® PLUS

THE PROTECTION
CATS NEED

NEW Revolution PLUS protects against fleas, ticks and other harmful parasites

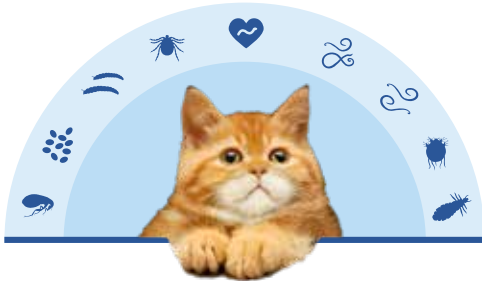

PROTECTING THOSE WE LOVE

SPECIALLY TAILORED TO MEET THE NEEDS OF CATS

REVOLUTION PLUS AVAILABLE HERE

We protect our cats in many ways. We feed them, make sure they have a safe home, and give them lots of love and affection.

But are you protecting your cat from parasites that can cause harm and discomfort, and also spread disease? Some of these diseases can be spread to other members of the family, including young children.

Just one monthly dose of NEW Revolution® PLUS gives your cat the protection they need, including protection from deadly paralysis ticks.

Whether your cat thinks they are the king or queen of the house or neighbourhood, they're still at risk from harmful parasites.

Cats share the same outdoor environment as dogs and are **exposed to the same level of risk.**

Parasites can also make their way inside on clothes, shoes, via open windows or doors and on other animals; even indoor cats need protecting.

Inside and out, Revolution PLUS protects them from harmful parasites.

Building on 20 years of trusted protection, Revolution PLUS has a unique dual action formula:

Twice as tough on fleas and mites

Offers broader protection – including deadly paralysis ticks

Also offers protection against heartworm, roundworm, hookworm and lice

An easy-to-apply monthly spot-on:

Low volume – minimising disruption to cats

Quick drying – no oily residue left on your cat, on your hands or in the home

No confusion – monthly dosing covers all parasites on the label

Revolution PLUS
